a different mirror ronald takaki 1: A Different Mirror Ronald Takaki, 2012-06-05 Takaki traces the economic and political history of Indians, African Americans, Mexicans, Japanese, Chinese, Irish, and Jewish people in America, with considerable attention given to instances and consequences of racism. The narrative is laced with short quotations, cameos of personal experiences, and excerpts from folk music and literature. Well-known occurrences, such as the Triangle Shirtwaist Factory Fire, the Trail of Tears, the Harlem Renaissance, and the Japanese internment are included. Students may be surprised by some of the revelations, but will recognize a constant thread of rampant racism. The author concludes with a summary of today's changing economic climate and offers Rodney King's challenge to all of us to try to get along. Readers will find this overview to be an accessible, cogent jumping-off place for American history and political science plus a guide to the myriad other sources identified in the notes.

a different mirror ronald takaki 1: A Different Mirror for Young People Ronald Takaki, 2012-10-30 A longtime professor of Ethnic Studies at the University of California at Berkeley, Ronald Takaki was recognized as one of the foremost scholars of American ethnic history and diversity. When the first edition of *A Different Mirror* was published in 1993, *Publishers Weekly* called it a brilliant revisionist history of America that is likely to become a classic of multicultural studies and named it one of the ten best books of the year. Now Rebecca Stefoff, who adapted Howard Zinn's best-selling *A People's History of the United States* for younger readers, turns the updated 2008 edition of Takaki's multicultural masterwork into *A Different Mirror for Young People*. Drawing on Takaki's vast array of primary sources, and staying true to his own words whenever possible, *A Different Mirror for Young People* brings ethnic history alive through the words of people, including teenagers, who recorded their experiences in letters, diaries, and poems. Like Zinn's *A People's History*, Takaki's *A Different Mirror* offers a rich and rewarding people's view perspective on the American story.

a different mirror ronald takaki 1: Strangers from a Different Shore Ronald T. Takaki, 2012-11 In an extraordinary blend of narrative history, personal recollection, & oral testimony, the author presents a sweeping history of Asian Americans. He writes of the Chinese who laid tracks for the transcontinental railroad, of plantation laborers in the canefields of Hawaii, of picture brides marrying strangers in the hope of becoming part of the American dream. He tells stories of Japanese Americans behind the barbed wire of U.S. internment camps during World War II, Hmong refugees tragically unable to adjust to Wisconsin's alien climate & culture, & Asian American students stigmatized by the stereotype of the model minority. This is a powerful & moving work that will resonate for all Americans, who together make up a nation of immigrants from other shores.

a different mirror ronald takaki 1: Double Victory Ronald T. Takaki, 2000 A history of America in World War II is told through the lives of an ethnically diverse group of ordinary Americans struggling for equality at home and fighting for freedom overseas. Takaki's revealing book shows that there were more struggles--and more victories--during WWII than most people ever imagined. 37 photos.

a different mirror ronald takaki 1: A Young People's History of the United States Howard Zinn, 2011-01-04 *A Young People's History of the United States* brings to US history the viewpoints of workers, slaves, immigrants, women, Native Americans, and others whose stories, and their impact, are rarely included in books for young people. *A Young People's History of the United States* is also a companion volume to *The People Speak*, the film adapted from *A People's History of the United States* and *Voices of a People's History of the United States*. Beginning with a look at Christopher Columbus's arrival through the eyes of the Arawak Indians, then leading the reader through the struggles for workers' rights, women's rights, and civil rights during the nineteenth and

twentieth centuries, and ending with the current protests against continued American imperialism, Zinn in the volumes of *A Young People's History of the United States* presents a radical new way of understanding America's history. In so doing, he reminds readers that America's true greatness is shaped by our dissident voices, not our military generals.

a different mirror ronald takaki 1: American Ethnic History Jason J. McDonald, 2007-05-25 This book provides a new framework for examining and comprehending the varied historical experiences of ethnic groups in the United States. Thematically organized and comparative in outlook, it explores how historians have grappled with questions that bear upon a key aspect of the American experience: ethnicity. How did the United States come to have such an ethnically diverse population? What contribution, if any, has this ethnic diversity made to the shaping of American culture and institutions? How easily and at what levels have ethnic and racial minorities been incorporated, if at all, into the social and economic structures of the United States? Has incorporation been a uniform process or has it varied from group to group? As well as providing readers with an accessible yet authoritative introduction to the field of American ethnic history, the book serves as a valuable reference tool for more experienced researchers. Key Features: *Adopts a comparative and thematic approach that helps to demystify this complex and controversial subject. *Provides an orderly and readable introduction to the main issues and debates surrounding the topic. *Detailed and broad-ranging discussion of historiography enables readers to find more specialized works on topics in which they are interested.

a different mirror ronald takaki 1: Recovering History, Constructing Race Martha Menchaca, 2002-01-15 "An unprecedented tour de force . . . [A] sweeping historical overview and interpretation of the racial formation and racial history of Mexican Americans." —Antonia I. Castañeda, Associate Professor of History, St. Mary's University Winner, A Choice Outstanding Academic Book The history of Mexican Americans is a history of the intermingling of races—Indian, White, and Black. This racial history underlies a legacy of racial discrimination against Mexican Americans and their Mexican ancestors that stretches from the Spanish conquest to current battles over ending affirmative action and other assistance programs for ethnic minorities. Asserting the centrality of race in Mexican American history, Martha Menchaca here offers the first interpretive racial history of Mexican Americans, focusing on racial foundations and race relations from preHispanic times to the present. Menchaca uses the concept of racialization to describe the process through which Spanish, Mexican, and U.S. authorities constructed racial status hierarchies that marginalized Mexicans of color and restricted their rights of land ownership. She traces this process from the Spanish colonial period and the introduction of slavery through racial laws affecting Mexican Americans into the late twentieth-century. This re-viewing of familiar history through the lens of race recovers Blacks as important historical actors, links Indians and the mission system in the Southwest to the Mexican American present, and reveals the legal and illegal means by which Mexican Americans lost their land grants. "Martha Menchaca has begun an intellectual insurrection by challenging the pristine aboriginal origins of Mexican Americans as historically inaccurate . . . Menchaca revisits the process of racial formation in the northern part of Greater Mexico from the Spanish conquest to the present." —Hispanic American Historical Review

a different mirror ronald takaki 1: Race, Rights, and the Asian American Experience Angelo N. Ancheta, 2006 In *Race, Rights, and the Asian American Experience*, Angelo N. Ancheta demonstrates how United States civil rights laws have been framed by a black-white model of race that typically ignores the experiences of other groups, including Asian Americans. When racial discourse is limited to antagonisms between black and white, Asian Americans often find themselves

in a racial limbo, marginalized or unrecognized as full participants. A skillful mixture of legal theories, court cases, historical events, and personal insights, this revised edition brings fresh insights to U.S. civil rights from an Asian American perspective.

a different mirror ronald takaki 1: *An African American and Latinx History of the United States* Paul Ortiz, 2018-01-30 An intersectional history of the shared struggle for African American and Latinx civil rights Spanning more than two hundred years, *An African American and Latinx History of the United States* is a revolutionary, politically charged narrative history, arguing that the "Global South" was crucial to the development of America as we know it. Scholar and activist Paul Ortiz challenges the notion of westward progress as exalted by widely taught formulations like "manifest destiny" and "Jacksonian democracy," and shows how placing African American, Latinx, and Indigenous voices unapologetically front and center transforms US history into one of the working class organizing against imperialism. Drawing on rich narratives and primary source documents, Ortiz links racial segregation in the Southwest and the rise and violent fall of a powerful tradition of Mexican labor organizing in the twentieth century, to May 1, 2006, known as International Workers' Day, when migrant laborers—Chicana/os, Afrocubanos, and immigrants from every continent on earth—united in resistance on the first "Day Without Immigrants." As African American civil rights activists fought Jim Crow laws and Mexican labor organizers warred against the suffocating grip of capitalism, Black and Spanish-language newspapers, abolitionists, and Latin American revolutionaries coalesced around movements built between people from the United States and people from Central America and the Caribbean. In stark contrast to the resurgence of "America First" rhetoric, Black and Latinx intellectuals and organizers today have historically urged the United States to build bridges of solidarity with the nations of the Americas. Incisive and timely, this bottom-up history, told from the interconnected vantage points of Latinx and African Americans, reveals the radically different ways that people of the diaspora have addressed issues still plaguing the United States today, and it offers a way forward in the continued struggle for universal civil rights. 2018 Winner of the PEN Oakland/Josephine Miles Literary Award

a different mirror ronald takaki 1: *The Accidental Asian* Eric Liu, 1999-09-07 Beyond black and white, native and alien, lies a vast and fertile field of human experience. It is here that Eric Liu, former speechwriter for President Clinton and noted political commentator, invites us to explore. In these compellingly candid essays, Liu reflects on his life as a second-generation Chinese American and reveals the shifting frames of ethnic identity. Finding himself unable to read a Chinese memorial book about his father's life, he looks critically at the cost of his own assimilation. But he casts an equally questioning eye on the effort to sustain vast racial categories like "Asian American." And as he surveys the rising anxiety about China's influence, Liu illuminates the space that Asians have always occupied in the American imagination. Reminiscent of the work of James Baldwin and its unwavering honesty, *The Accidental Asian* introduces a powerful and elegant voice into the discussion of what it means to be an American.

a different mirror ronald takaki 1: *Living in the Shadow of the Cross* Paul Kivel, 2013-10-01 How our dominant Christian worldview shapes everything from personal behavior to public policy (and what to do about it) Over the centuries, Christianity has accomplished much which is deserving of praise. Its institutions have fed the hungry, sheltered the homeless, and advocated for the poor. Christian faith has sustained people through crisis and inspired many to work for social justice. Yet although the word Christian connotes the epitome of goodness, the actual story is much more complex. Over the last two millennia, ruling elites have used Christian institutions and values to control those less privileged throughout the world. The doctrine of Christianity has been interpreted

to justify the killing of millions, and its leaders have used their faith to sanction participation in colonialism, slavery, and genocide. In the Western world, Christian influence has inspired legislators to continue to limit women's reproductive rights and has kept lesbians and gays on the margins of society. As our triple crises of war, financial meltdown, and environmental destruction intensify, it is imperative that we dig beneath the surface of Christianity's benign reputation to examine its contribution to our social problems. Living in the Shadow of the Cross reveals the ongoing, everyday impact of Christian power and privilege on our beliefs, behaviors, and public policy, and emphasizes the potential for people to come together to resist domination and build and sustain communities of justice and peace. Paul Kivel is the award-winning author of *Uprooting Racism* and the director of the Christian Hegemony Project. He is a social justice activist and educator who has focused on the issues of violence prevention, oppression, and social justice for over forty-five years.

a different mirror ronald takaki 1: Hiroshima Ronald Takaki, 1996-09-01 The bombing of Hiroshima was one of the pivotal events of the twentieth century, yet this controversial question remains unresolved. At the time, General Dwight Eisenhower, General Douglas MacArthur, and chief of staff Admiral William Leahy all agreed that an atomic attack on Japanese cities was unnecessary. All of them believed that Japan had already been beaten and that the war would soon end. Was the bomb dropped to end the war more quickly? Or did it herald the start of the Cold War? In his probing new study, prizewinning historian Ronald Takaki explores these factors and more. He considers the cultural context of race - the ways in which stereotypes of the Japanese influenced public opinion and policymakers - and also probes the human dimension. Relying on top secret military reports, diaries, and personal letters, Takaki relates international policies to the individuals involved: Los Alamos director J. Robert Oppenheimer, Secretary of State James Byrnes, Secretary of War Henry L. Stimson, and others... but above all, Harry Truman.

a different mirror ronald takaki 1: Elizabeth and Hazel David Margolick, 2011-10-04 The names Elizabeth Eckford and Hazel Bryan Massery may not be well known, but the image of them from September 1957 surely is: a black high school girl, dressed in white, walking stoically in front of Little Rock Central High School, and a white girl standing directly behind her, face twisted in hate, screaming racial epithets. This famous photograph captures the full anguish of desegregation—in Little Rock and throughout the South—and an epic moment in the civil rights movement. In this gripping book, David Margolick tells the remarkable story of two separate lives unexpectedly braided together. He explores how the haunting picture of Elizabeth and Hazel came to be taken, its significance in the wider world, and why, for the next half-century, neither woman has ever escaped from its long shadow. He recounts Elizabeth's struggle to overcome the trauma of her hate-filled school experience, and Hazel's long efforts to atone for a fateful, horrible mistake. The book follows the painful journey of the two as they progress from apology to forgiveness to reconciliation and, amazingly, to friendship. This friendship foundered, then collapsed—perhaps inevitably—over the same fissures and misunderstandings that continue to permeate American race relations more than half a century after the unforgettable photograph at Little Rock. And yet, as Margolick explains, a bond between Elizabeth and Hazel, silent but complex, endures.

a different mirror ronald takaki 1: Trade in Strangers Marianne S. Wokeck, 2015-07-14 American historians have long been fascinated by the peopling of North America in the seventeenth century. Who were the immigrants, and how and why did they make their way across the ocean?

Most of the attention, however, has been devoted to British immigrants who came as free people or as indentured servants (primarily to New England and the Chesapeake) and to Africans who were forced to come as slaves. *Trade in Strangers* focuses on the eighteenth century, when new immigrants began to flood the colonies at an unprecedented rate. Most of these immigrants were German and Irish, and they were coming primarily to the middle colonies via an increasingly sophisticated form of transport. Wokeck shows how first the German system of immigration, and then the Irish system, evolved from earlier, haphazard forms into modern mass transoceanic migration. At the center of this development were merchants on both sides of the Atlantic who organized a business that enabled them to make profitable use of underutilized cargo space on ships bound from Europe to the British North American colonies. This trade offered German and Irish immigrants transatlantic passage on terms that allowed even people of little and modest means to pursue opportunities that beckoned in the New World. *Trade in Strangers* fills an important gap in our knowledge of America's immigration history. The eighteenth-century changes established a model for the better-known mass migrations of the nineteenth and twentieth centuries, which drew wave after wave of Europeans to the New World in the hope of making a better life than the one they left behind—a story that is familiar to most modern Americans.

Showing how American studies has been shaped by the social movements of the 1930s, 1960s, and 1980s, Lipsitz identifies the ways in which the globalization of commerce and culture are producing radically new understandings of politics, performance, consumption, knowledge, and nostalgia. Eiffel's Tower for Young People is a vivid, lively pageant of people and cultures meeting—and competing—on the world stage at the dawn of the modern era. The 1889 World's Fair was a worldwide event showcasing the cutting-edge cultural and technological accomplishments of the world's most powerful nations on the verge of a new century. France, with its long history of sophistication and cultivation and a new republican government, presented the Eiffel Tower, the world's tallest structure, crafted from eighteen thousand pieces of wrought iron and 2.5 million rivets, as a symbol of national pride and engineering superiority. The United States, with its brash, can-do spirit, full of pride in its frontier and its ingenuity, presented the rollicking Wild West show of Buffalo Bill Cody and Annie Oakley, and the marvelous new phonograph of Thomas Edison. With historical photos throughout, outsized personalities, squabbling artists, and a sprinkling of royalty, this dramatic history opens a window to a piece of the past that, in its passions and politics, is an unforgettable portrait of a unique moment in history.

The first work for younger readers to describe the true history of racial mixing in America, it exposes how desperately some people have fought to guard our racial borderlines. Gary Nash, a past president of the Organization of American Historians, has been instrumental in rethinking how history should be taught in schools. Now, starting with John Rolfe and Pocahontas, pausing to compare the United States with Canada and Mexico, and ending with his own multiracial classrooms, he shows how racial mixing, and the fear of it, is at the heart of American history.

The language of the treaty was designed to deal fairly with the people who became residents of the United States by default. However, as Richard Griswold del Castillo points out, articles calling for equality and protection of civil and property rights were either ignored or interpreted to favor those involved in the westward expansion of the United States rather than the Mexicans and Indians living in the conquered territories.

Throughout the nineteenth and twentieth centuries, Texas educational policymakers embraced, ignored, rejected, outlawed, then once again embraced this tradition. In *The Strange Career of Bilingual Education in Texas*, author Carlos Blanton traces the educational policies and their underlying rationales, from Stephen F. Austin's proposal in the 1830s to Mexicanize Anglo children by teaching them Spanish along with English and French, through the 1981 passage of the most encompassing bilingual education law in the state's history. Blanton draws on primary materials, such as the handwritten records of county administrators and the minutes of state education meetings, and presents the Texas experience in light of national trends and movements, such as Progressive Education, the Americanization Movement, and the Good Neighbor Movement. By tracing the many changes that eventually led to the re-establishment of bilingual education in its modern form in the 1960s and the 1981 passage of a landmark state law, Blanton reconnects Texas with its bilingual past. CARLOS KEVIN BLANTON, an assistant professor of history at Texas A&M University, earned his Ph.D. from Rice University. His research in Mexican American educational history has been published in journals such as the *Pacific Historical Review* and *Social Science Quarterly*.

Winner, Silver Medal, California Book Awards—Commonwealth Club of California With a foreword by William Devereill*The Indispensable Enemy* examines the anti-Chinese confrontation on the Pacific Coast as it was experienced and rationalized by the white majority. Focusing on the Democratic party and the labor movement of California through the forty-year period after the Civil War, Alexander Saxton explores aspects of the Jacksonian background which proves crucial to an understanding of what occurred in California. *The Indispensable Enemy* looks beyond the turn of the 19th century to trace results of the sequence of events in the West for the labor movement as a whole, influencing events that led to the crystallization of an American concept of national identity. a different mirror ronald takaki 1: White Privilege Paula S. Rothenberg, 2004-06-25

Studies of racism often focus on its devastating effects on the victims of prejudice. But no discussion of race is complete without exploring the other side--the ways in which some people or groups actually benefit, deliberately or inadvertently, from racial bias. *White Privilege*, Second Edition, the revision to the ground-breaking anthology from Paula Rothenberg, continues her efforts from the first edition. Two new essays contribute to the discussion of the nature and history of white power. The concluding section again challenges readers to explore ideas for using the power and the concept of white privilege to help combat racism in their own lives. Brief, inexpensive, and easily integrated with other texts, this interdisciplinary collection of commonsense, non-rhetorical readings lets educators incorporate discussions of whiteness and white privilege into a variety of disciplines, including sociology, English composition, psychology, social work, women's studies, political science, and American studies.
