**nottoway plantation history slavery:** **Bayou Fire** Sharon E. Cathcart, 2017-04-17 Diana Corbett's childhood was plagued by unceasing dreams of smoke and flames. **nottoway plantation history slavery:** Tales from the Haunted South Tiya Miles, 2015-08-12 In this book Tiya Miles explores the popular yet troubling phenomenon of ghost tours, frequently promoted and experienced at plantations, urban manor homes, and cemeteries throughout the South. As a staple of the tours, guides entertain paying customers by routinely relying on stories of enslaved black specters. But who are these ghosts? Examining popular sites and stories from these tours, Miles shows that haunted tales routinely appropriate and skew African American history to produce representations of slavery for commercial gain. Dark tourism often highlights the most sensationalist and macabre aspects of slavery, from salacious sexual ties between white masters and black women slaves to the physical abuse and torture of black bodies to the supposedly exotic nature of African spiritual practices. Because the realities of slavery are largely absent from these tours, Miles reveals how they continue to feed problematic Old South narratives and erase the hard truths of the Civil War era. In an incisive and engaging work, Miles uses these troubling cases to shine light on how we feel about the Civil War and race, and how the ghosts of the past are still with us.

**nottoway plantation history slavery:** **The Forgetting Tree** Rae Paris, 2017-04-12 A personal narrative of past and present racial violence and resistance to terror in the United States. Rae Paris began writing *The Forgetting Tree: A Rememory* in 2010, while traveling the United States, visiting sites of racial trauma, horror, and defiance. The desire to do this work came from being a child of parents born and raised in New Orleans during segregation, who ultimately left for California in the late 1950s. After the death of her father in 2011, the fiction Paris had been writing gave way to poetry and short prose, which were heavily influenced by the questions she'd long been considering about narrative, power, memory, and freedom. The need to write this story became even more personal and pressing. While Paris sometimes uses the genre of memoir or hybrid memoir when referring to her work, in this case the term rememory, born from Toni Morrison's *Beloved*, feels most accurate. Paris is driven by the familial and historical spaces and by what happens when we remember seemingly disparate images and moments. The collection is not fully prose or poetry, but rather an elegy for those who have passed through us. A perfect blend of prose, poetry, and images, *The Forgetting Tree* is a unique and thought-provoking collection that argues for a deeper understanding of past and present so that we might imagine a more hopeful, sustainable, and loving future.

**nottoway plantation history slavery:** **How the Word Is Passed** Clint Smith, 2021-06-01 This "important and timely" (Drew Faust, *Harvard Magazine*) #1 New York Times bestseller examines the legacy of slavery in America—and how both history and memory continue to shape our everyday lives. Beginning in his hometown of New Orleans, Clint Smith leads the reader on an unforgettable tour of monuments and landmarks—those that are honest about the past and those that are not—that offer an intergenerational story of how slavery has been central in shaping our nation's collective history, and ourselves. It is the story of the Monticello Plantation in Virginia, the estate where Thomas Jefferson wrote letters espousing the urgent need for liberty while enslaving more than four hundred people. It is the story of the Whitney Plantation, one of the only former plantations devoted to preserving the experience of the enslaved people whose lives and work

sustained it. It is the story of Angola, a former plantation-turned-maximum-security prison in Louisiana that is filled with Black men who work across the 18,000-acre land for virtually no pay. And it is the story of Blandford Cemetery, the final resting place of tens of thousands of Confederate soldiers. A deeply researched and transporting exploration of the legacy of slavery and its imprint on centuries of American history, *How the Word Is Passed* illustrates how some of our country's most essential stories are hidden in plain view—whether in places we might drive by on our way to work, holidays such as Juneteenth, or entire neighborhoods like downtown Manhattan, where the brutal history of the trade in enslaved men, women, and children has been deeply imprinted. Informed by scholarship and brought to life by the story of people living today, Smith's debut work of nonfiction is a landmark of reflection and insight that offers a new understanding of the hopeful role that memory and history can play in making sense of our country and how it has come to be. Winner of the National Book Critics Circle Award for Nonfiction Winner of the Stowe Prize Winner of 2022 Hillman Prize for Book Journalism A New York Times 10 Best Books of 2021

**nottoway plantation history slavery: The Plantation in the Postslavery Imagination** Elizabeth Christine Russ, 2009 In a provocative new approach toward understanding transnational literary cultures, this study examines the specter of the plantation, that physical place most vividly associated with slavery in the Americas. For Elizabeth Russ, the plantation is not merely a literal location, but also a vexing rhetorical, ideological, and psychological trope through which intersecting histories of the New World are told. Through a series of precise, in-depth readings, Russ analyzes the discourse of the plantation through a number of suggestive pairings: male and female perspectives; U.S. and Spanish American traditions; and continental alongside island societies. To chart comparative elements in the development of the postslavery imagination in the Northern and Southern hemispheres, Russ distinguishes between a modern and a postmodern imaginary. The former privileges a familiar plot of modernity: the traumatic transition from a local, largely agrarian order to an increasingly anonymous industrialized society. The latter, abandoning nostalgia toward the past, suggests a new history using the strategies of performance, such as witnessing, reticency, and traversal. Authors examined include *The Twelve Southerners*, Fernando Ortiz, Teresa de la Parra, Eudora Welty, Antonio Benítez Rojo, Gayl Jones, Toni Morrison, and Mayra Santos-Febres, among others. Applying sharp analyses across a broad range of texts, Russ reveals how the language used to imagine communities influenced by the plantation has been gendered, racialized, and eroticized in ways that oppose the domination of an ever-shifting North while often reproducing the fundamental power divide. Her work moves beyond the North-South dichotomy that has often stymied scholarly work in Latin American studies and, importantly, provides a model for future hemispheric approaches.

**nottoway plantation history slavery:** Representations of Slavery Jennifer L. Eichstedt, Stephen Small, 2002-09-17 How is slavery presented at the public and private plantation museums in the American South, almost 150 years after the Civil War? Jennifer L. Eichstedt and Stephen Small investigated this question in Virginia, Georgia, and Louisiana by touring more than one hundred plantation museums; twenty locations organized and run by African Americans; and eighty general history sites. Their findings indicate that the experience and legacy of slavery is still inadequately presented within the larger discourse surrounding race, racism, and national identity. The vast majority of slavery sites construct narratives of history that valorize a white elite of the pre-emancipation South and trivialize the experience of slavery for both enslaved people and their enslavers. Through systematic analysis of richly textured data, the authors of *Representations of Slavery* have developed a typology of primary representational/discursive strategies used to discuss slavery and the enslaved. They clearly demonstrate how these strategies are linked to representations and practices in the larger social and political arenas. Eichstedt and Small found counter narratives at sites organized and staffed by African Americans, and a small number of white-organized sites have made efforts to incorporate African American experiences of slavery as part of their presentations. But the predominant framework of the “white-centric exhibition narrative” persists, and the authors draw from contemporary literature on racialization, museums, cultural studies, and collective memory to make a case for public debate and intervention.

**nottoway plantation history slavery:** *Them Dark Days* William Dusinberre, 2000 *Them Dark Days* is a study of the callous, capitalistic nature of the vast rice plantations along the southeastern coast. It is essential reading for anyone whose view of slavery’s horrors might be softened by the current historical emphasis on slave community and family and slave autonomy and empowerment. Looking at Gowrie and Butler Island plantations in Georgia and Chicora Wood in South Carolina, William Dusinberre considers a wide range of issues related to daily life and work there: health, economics, politics, dissidence, coercion, discipline, paternalism, and privilege. Based on overseers’ letters, slave testimonies, and plantation records, *Them Dark Days* offers a vivid reconstruction of slavery in action and casts a sharp new light on slave history.

**nottoway plantation history slavery:** Haunted History of Louisiana Plantations, A Cheryl H. White, PhD, and W. Ryan Smith, MA, 2017 Louisiana plantations evoke images of grandeur and elegance. Beyond the facade of stately homes are stories of hope and subjugation, tragedy and suffering, shame and perseverance and war and conquest. After sixteen workers axed most of the Houmas House's ancient oak trees, referred to as the Gentlemen, eight of the surviving trees eerily twisted overnight in grief over the losses wrought by a great Mississippi River flood. An illegal duel to reclaim lost honor left the grounds of Natchez's Cherokee Plantation bloodstained, but the victim's spirit may still wander there today. A mutilated slave girl named Chloe still haunts the halls of the Myrtles Plantation in St. Francisville. Cheryl H. White and W. Ryan Smith reveal the dark history, folklore and lasting human cost of Louisiana plantation life.

**nottoway plantation history slavery:** *City of Refuge* Marcus Peyton Nevius, 2020 *City of Refuge* is a story of petit marronage, an informal slave's economy, and the construction of internal improvements in the Great Dismal Swamp of Virginia and North Carolina. The vast wetland was tough terrain that most white Virginians and North Carolinians considered uninhabitable. Perceived desolation notwithstanding, black slaves fled into the swamp's remote sectors and engaged in petit marronage, a type of escape and fugitivity prevalent throughout the Atlantic world. An alternative to the dangers of flight by way of the Underground Railroad, maroon communities often neighbored slave-labor camps, the latter located on the swamp's periphery and operated by the Dismal Swamp Land Company and other companies that employed slave labor to facilitate the extraction of the Dismal's natural resources. Often with the tacit acceptance of white company agents, company slaves engaged in various exchanges of goods and provisions with maroons-networks that padded company accounts even as they helped to sustain maroon colonies and communities. In his examination of life, commerce, and social activity in the Great Dismal Swamp, Marcus P. Nevius engages the historiographies of slave resistance and abolitionism in the early American republic.

City of Refuge uses a wide variety of primary sources-including runaway advertisements; planters' and merchants' records, inventories, letterbooks, and correspondence; abolitionist pamphlets and broadsides; county free black registries; and the records and inventories of private companies-to examine how American maroons, enslaved canal laborers, white company agents, and commission merchants shaped, and were shaped by, race and slavery in an important region in the history of the late Atlantic world.

**nottoway plantation history slavery: Wounds of Returning** Jessica Adams, 2012-09-01 From Storyville brothels and narratives of turn-of-the-century New Orleans to plantation tours, Bette Davis films, Elvis memorials, Willa Cather's fiction, and the annual prison rodeo held at the Louisiana State Penitentiary at Angola, Jessica Adams considers spatial and ideological evolutions of southern plantations after slavery. In *Wounds of Returning*, Adams shows that the slave past returns to inhabit plantation landscapes that have been radically transformed by tourism, consumer culture, and modern modes of punishment-even those landscapes from which slavery has supposedly been banished completely. Adams explores how the commodification of black bodies during slavery did not disappear with abolition-rather, the same principle was transformed into modern consumer capitalism. As Adams demonstrates, however, counternarratives and unexpected cultural hybrids erupt out of attempts to re-create the plantation as an uncomplicated scene of racial relationships or a signifier of national unity. Peeling back the layers of plantation landscapes, Adams reveals connections between seemingly disparate features of modern culture, suggesting that they remain haunted by the force of the unnatural equation of people as property.

**nottoway plantation history slavery: The Butlers of Iberville Parish, Louisiana** David D. Plater, 2015-11-18 In 1833, Edward G. W. and Frances Parke Butler moved to their newly constructed plantation house, Dunboyne, on the banks of the Mississippi River near the village of Bayou Goula. Their experiences at Dunboyne over the next forty years demonstrated the transformations that many land-owning southerners faced in the nineteenth century, from the evolution of agricultural practices and commerce, to the destruction wrought by the Civil War and the transition from slave to free labor, and finally to the social, political, and economic upheavals of Reconstruction. In this comprehensive biography of the Butlers, David D. Plater explores the remarkable lives of a Louisiana family during one of the most tumultuous periods in American history. Born in Tennessee to a celebrated veteran of the American Revolution, Edward Butler pursued a military career under the mentorship of his guardian, Andrew Jackson, and, during a posting in Washington, D.C., met and married a grand-niece of George Washington, Frances Parke Lewis. In 1831, he resigned his commission and relocated Frances and their young son to Iberville Parish, where the couple began a sugar cane plantation. As their land holdings grew, they amassed more enslaved laborers and improved their social prominence in Louisiana's antebellum society. A staunch opponent of abolition, Butler voted in favor of Louisiana's withdrawal from the Union at the state's Secession Convention. But his actions proved costly when the war cut off agricultural markets and all but destroyed the state's plantation economy, leaving the Butlers in financial ruin. In 1870, with their plantation and finances in disarray, the Butlers sold Dunboyne and resettled in Pass Christian, Mississippi, where they resided in a rental cottage with the financial support of Edward J. Gay, a wealthy Iberville planter and their daughter-in-law's father. After Frances died in 1875, Edward Butler moved in with his son's family in St. Louis, where he remained until his death in 1888. Based on voluminous primary source material, *The Butlers of Iberville Parish, Louisiana* offers an intimate picture of a wealthy nineteenth-century family and the turmoil they faced as a system based on the enslavement of others unraveled.

**nottoway plantation history slavery: The Negro in the South, His Economic Progress in Relation to His Moral and Religious Development** Booker T. Washington, William Edward Burghardt Du Bois, 1907 Four lectures given as part of an endowed Lectureship on Christian Sociology at

Philadelphia Divinity School. Washington's two lectures concern the economic development of African Americans both during and after slavery. He argues that slavery enabled the freedman to become a success, and that economic and industrial development improves both the moral and the religious life of African Americans. Du Bois argues that slavery hindered the South in its industrial development, leaving an agriculture-based economy out of step with the world around it. His second lecture argues that Southern white religion has been broadly unjust to slaves and former slaves, and how in so doing it has betrayed its own hypocrisy.

**nottoway plantation history slavery:** *Rice and Slaves* Daniel C. Littlefield, 2022-10-17 Daniel Littlefield's investigation of colonial South Carolinians' preference for some African ethnic groups over others as slaves reveals how the Africans' diversity and capabilities inhibited the development of racial stereotypes and influenced their masters' perceptions of slaves. It also highlights how South Carolina, perhaps more than anywhere else in North America, exemplifies the common effort of Africans and Europeans in molding American civilization.

**nottoway plantation history slavery:** *Within the Plantation Household* Elizabeth Fox-Genovese, 2000-11-09 Documenting the difficult class relations between women slaveholders and slave women, this study shows how class and race as well as gender shaped women's experiences and determined their identities. Drawing upon massive research in diaries, letters, memoirs, and oral histories, the author argues that the lives of antebellum southern women, enslaved and free, differed fundamentally from those of northern women and that it is not possible to understand antebellum southern women by applying models derived from New England sources.

**nottoway plantation history slavery:** *Lost Plantations of the South* Marc R. Matrana, 2014-07-18 The great majority of the South's plantation homes have been destroyed over time, and many have long been forgotten. In *Lost Plantations of the South*, Marc R. Matrana weaves together photographs, diaries and letters, architectural renderings, and other rare documents to tell the story of sixty of these vanquished estates and the people who once called them home. From plantations that were destroyed by natural disaster such as Alabama's Forks of Cypress, to those that were intentionally demolished such as Seven Oaks in Louisiana and Mount Brilliant in Kentucky, Matrana resurrects these lost mansions. Including plantations throughout the South as well as border states, Matrana carefully tracks the histories of each from the earliest days of construction to the often-contentious struggles to preserve these irreplaceable historic treasures. *Lost Plantations of the South* explores the root causes of demise and provides understanding and insight on how lessons learned in these sad losses can help prevent future preservation crises. Capturing the voices of masters and mistresses alongside those of slaves, and featuring more than one hundred elegant archival illustrations, this book explores the powerful and complex histories of these cardinal homes across the South.

**nottoway plantation history slavery:** *Slavery and Public History* James Oliver Horton, Lois E. Horton, 2014-03-25 "A fascinating collection of essays" by eminent historians exploring how we teach, remember, and confront the history and legacy of American slavery (Booklist Online). In recent years, the culture wars have called into question the way America's history of slavery is depicted in books, films, television programs, historical sites, and museums. In the first attempt to examine the historiography of slavery, this unique collection of essays looks at recent controversies that have played out in the public arena, with contributions by such noted historians as Ira Berlin, David W. Blight, and Gary B. Nash. From the cancellation of the Library of Congress's "Back of the Big House" slavery exhibit at the request of the institution's African American employees, who found the visual images of slavery too distressing, to the public reaction to DNA findings confirming Thomas Jefferson's relationship with his slave Sally Hemings, *Slavery and Public History* takes on contemporary reactions to the fundamental contradiction of American history—the existence of slavery in a country dedicated to freedom—and offers a bracing analysis of how Americans choose to remember the past, and how those choices influence our politics and culture. "Americans seem perpetually surprised by slavery—its extent (North as well as South), its span (over half of our four centuries of Anglo settlement), and its continuing influence. The wide-ranging yet connected essays in [this book] will help us all to remember and understand." —James W. Loewen, author of *Sundown Towns*

**nottoway plantation history slavery: Subfloor Pits and the Archaeology of Slavery in Colonial Virginia** Patricia Samford, 2007-12-16 This book discusses the daily life and culture of enslaved Africans and their descendants. Enslaved Africans and their descendants comprised a significant portion of colonial Virginia populations, with most living on rural slave quarters adjacent to the agricultural fields in which they labored. Archaeological excavations into these home sites have provided unique windows into the daily lifeways and culture of these early inhabitants. subfloor pits be-neath the houses. The most common explanations of the functions of these pits are as storage places for personal belongings or root vegetables, and some contextual and ethnohistoric data suggest they may have served as West African-style shrines. Through analysis of 103 subfloor pits dating from the 17th through mid-19th centuries, Samford reveals how data on shape, location, surface area, and depth, as well as contextual analysis of artifact assemblages, can show how subfloor pits functioned for the enslaved. Archaeology reveals the material circumstances of slaves' lives, which in turn opens the door to illuminating other aspects of life: spirituality, symbolic meanings assigned to material goods, social life, individual and group agency, and acts of resistance and accommodation. about how West African, possibly Igbo, cultural traditions were maintained and transformed in the Virginia Chesapeake.

**nottoway plantation history slavery: In the Shadows of the Big House** Stephen Small, 2023-06-23 In the midst of calls for the removal of Confederate monuments across the South, tens of thousands of museums, buildings, and other historical sites currently comprise a tourist infrastructure of the southern heritage industry. Louisiana, one of the most prominent and frequently visited states that benefit from this tourism, has more than sixty heritage sites housed in former slave plantations. These sites contain the remains, restorations, reconstructions, and replicas of antebellum slave cabins and slave quarters. In the Shadows of the Big House: Twenty-First-Century Antebellum Slave Cabins and Heritage Tourism in Louisiana is the first book to tackle the role, treatment, and representation of slave cabins at plantation museum sites in contemporary heritage tourism. In this volume, author Stephen Small describes and analyzes sixteen twenty-first-century antebellum slave cabins currently located on three plantation museum sites in Natchitoches, Louisiana: Oakland Plantation, Magnolia Plantation Complex, and Melrose Plantation. Small traces the historical trajectory of plantations and slave cabins since the Civil War and explores what representations of slavery and slave cabins in these sites convey about the reconfiguration of the past and the rearticulation of history in the present. Considering such themes as the role of white ethnic identity in representations of elite whites and the extent and significance of Black voices and Black visions of representations of these plantations, Small asks what these sites reveal about social forgetting and social remembering throughout Louisiana and the South. He further explores the ways that gender structures the social organization of current sites and the role and influence of the state in the social organization and representations that prevail today.

**nottoway plantation history slavery: The Cooking Gene** Michael W. Twitty, 2018-07-31 2018 James Beard Foundation Book of the Year | 2018 James Beard Foundation Book Award Winner inWriting | Nominee for the 2018 Hurston/Wright Legacy Award in Nonfiction | #75 on The Root100 2018 A renowned culinary historian offers a fresh perspective on our most divisive cultural issue, race, in this illuminating memoir of Southern cuisine and food culture that traces his ancestry—both

black and white—through food, from Africa to America and slavery to freedom. Southern food is integral to the American culinary tradition, yet the question of who owns it is one of the most provocative touch points in our ongoing struggles over race. In this unique memoir, culinary historian Michael W. Twitty takes readers to the white-hot center of this fight, tracing the roots of his own family and the charged politics surrounding the origins of soul food, barbecue, and all Southern cuisine. From the tobacco and rice farms of colonial times to plantation kitchens and backbreaking cotton fields, Twitty tells his family story through the foods that enabled his ancestors' survival across three centuries. He sifts through stories, recipes, genetic tests, and historical documents, and travels from Civil War battlefields in Virginia to synagogues in Alabama to Black-owned organic farms in Georgia. As he takes us through his ancestral culinary history, Twitty suggests that healing may come from embracing the discomfort of the Southern past. Along the way, he reveals a truth that is more than skin deep—the power that food has to bring the kin of the enslaved and their former slaveholders to the table, where they can discover the real America together. **nottoway plantation history slavery:** Yuletide in Dixie Robert E. May, 2019-10-15 How did enslaved African Americans in the Old South really experience Christmas? Did Christmastime provide slaves with a lengthy and jubilant respite from labor and the whip, as is generally assumed, or is the story far more complex and troubling? In this provocative, revisionist, and sometimes chilling account, Robert E. May chides the conventional wisdom for simplifying black perspectives, uncritically accepting southern white literary tropes about the holiday, and overlooking evidence not only that countless southern whites passed Christmases fearful that their slaves would revolt but also that slavery's most punitive features persisted at holiday time. In *Yuletide in Dixie*, May uncovers a dark reality that not only alters our understanding of that history but also sheds new light on the breakdown of slavery in the Civil War and how false assumptions about slave Christmases afterward became harnessed to myths undergirding white supremacy in the United States. By exposing the underside of slave Christmases, May helps us better understand the problematic stereotypes of modern southern historical tourism and why disputes over Confederate memory retain such staying power today. A major reinterpretation of human bondage, *Yuletide in Dixie* challenges disturbing myths embedded deeply in our culture.

**nottoway plantation history slavery:** Slave Religion Albert J. Raboteau, 2004-10-07 Twenty-five years after its original publication, *Slave Religion* remains a classic in the study of African American history and religion. In a new chapter in this anniversary edition, author Albert J. Raboteau reflects upon the origins of the book, the reactions to it over the past twenty-five years, and how he would write it differently today. Using a variety of first and second-hand sources-- some objective, some personal, all riveting-- Raboteau analyzes the transformation of the African religions into evangelical Christianity. He presents the narratives of the slaves themselves, as well as missionary reports, travel accounts, folklore, black autobiographies, and the journals of white observers to describe the day-to-day religious life in the slave communities. *Slave Religion* is a must-read for anyone wanting a full picture of this invisible institution.

**nottoway plantation history slavery:** *Slavery And Public History* James Oliver Horton, Lois E. Horton, 2006-04-03 In recent years, the culture wars have included arguments about the way that slavery is taught and remembered in books, films, television programs, historical sites, and museums. In the first attempt to examine this phenomenon, *Slavery and Public History* looks at recent controversies surrounding the interpretation of slavery's history in the public arena, with contributions by such noted historians as Ira Berlin, David W. Blight, and Gary B. Nash. From the cancellation of the Library of Congress's Back of the Big House slavery exhibit at the request of the institution's African American employees, who found the visual images of slavery too distressing, to the public reaction to DNA findings confirming Thomas Jefferson's relationship with his slave Sally Hemings, *Slavery and Public History* takes on contemporary reactions to the fundamental contradiction of American history--the existence of slavery in a country dedicated to freedom--and offers a bracing analysis of how people remember their past and how the lessons they draw from it

influence American politics and culture today.
