temu my order history: New Zealand, Its Physical Geography, Geology and Natural History Ferdinand von Hochstetter, Edward Sauter, 1867 Inhabited by Polynesians since the thirteenth century and discovered by Europeans in the seventeenth, New Zealand is a geologically diverse island group where active volcanoes and frequent earthquakes have resulted in a rich variety of rock formations and geothermal activity. In 1859-60, the geologist Ferdinand von Hochstetter (1829-84) was employed by Auckland's government to undertake the first systematic geological survey of the islands, the results of which were first published in German in 1863 and translated into this English version in 1867. Hochstetter describes his travels across New Zealand, his encounters with native people and his scientific observations. He analyses plants, wildlife and fossils, describes mountains, rocks and boiling springs, and evaluates evidence of glaciers and tectonic activity. As a result of Hochstetter's work, several species in New Zealand were named after him. This book remains a valuable resource in the history of Australasian natural science'-- Publisher.

temu my order history: A History of Egypt from the End of the Neolithic Period to the Death of Cleopatra VII B.C. 30 (Routledge Revivals) E. A. Wallis Budge, 2013-06-17 Sir E. A. Wallis Budge (1857-1934) was Keeper of the British Museum's department of oriental antiquities from 1894 until his retirement in 1924. Carrying out many missions to Egypt in search of ancient objects, Budge was hugely successful in collecting papyri, statues and other artefacts for the trustees of the British Museum: numbering into the thousands and of great cultural and historical significance. Budge published well over 100 monographs, which shaped the development of future scholarship and are still of great academic value today, dealing with subjects such as Egyptian religion, history and literature. This volume, first published in 1902, is the fifth of eight volumes by Budge dealing with different periods in the history of Egypt. The narrative begins with the reign of Rameses I, the first king of the XIXth Dynasty, and ends with the rule of Rameses XII. It covers the principal events which took place between the years 1400 and 1130 B.C., including the Hebrew exodus. Budge explores this rich and important period of Egyptian history in a classic work of great value to those interested in Egyptology and archaeology.

temu my order history: A History of African Societies to 1870 Elizabeth Isichei, 1997-04-13 This comprehensive and detailed exploration of the African past, from prehistory to approximately

1870, is intended to provide a fully up-to-date complement to the Cambridge History of Africa. Reflecting several emphases in recent scholarship, it focusses on the changing modes of production, on gender relations and on ecology, laying particular stress on viewing 'history from below'. A distinctive theme is to be found in its analyses of cognitive history. The work falls into three sections. The first comprises a historiographic analysis, and covers the period from the dawn of prehistory to the end of the Early Iron Age. The second and third sections are, for the most part, organised on regional lines; the second section ends in the sixteenth century; the third carries the story on to 1870. A second volume, now in preparation, will cover the period from 1870 to 1995. This book attempts a more rounded view of African history than most of the other textbooks on the subject addressed to a (largely) undergraduate level student. Earlier histories have tended to ignore some of the current foci in the scholarly literature on Africa, generally not reflected in the textbooks: these include discussions of topical issues like ecology and gender. Isichei's book is also more radical.

temu my order history: Terror and Greatness Kevin M. F. Platt, 2011-05-15 In this ambitious book, Kevin M. F. Platt focuses on a cruel paradox central to Russian history: that the price of progress has so often been the traumatic suffering of society at the hands of the state. The reigns of Ivan IV (the Terrible) and Peter the Great are the most vivid exemplars of this phenomenon in the pre-Soviet period. Both rulers have been alternately lionized for great achievements and despised for the extraordinary violence of their reigns. In many accounts, the balance of praise and condemnation remains unresolved; often the violence is simply repressed. Platt explores historical and cultural representations of the two rulers from the early nineteenth century to the present, as they shaped and served the changing dictates of Russian political life. Throughout, he shows how past representations exerted pressure on subsequent attempts to evaluate these liminal figures. In ever-changing and often counterposed treatments of the two, Russians have debated the relationship between greatness and terror in Russian political practice, while wrestling with the fact that the nation's collective selfhood has seemingly been forged only through shared, often self-inflicted trauma. Platt investigates the work of all the major historians, from Karamzin to the present, who wrote on Ivan and Peter. Yet he casts his net widely, and historians of the two tsars include poets, novelists, composers, and painters, giants of the opera stage, Party hacks, filmmakers, and Stalin himself. To this day the contradictory legacies of Ivan and Peter burden any attempt to come to terms with the nature of political power—past, present, future—in Russia.

temu my order history: The History of Ancient Egyptian Literature E. A. Wallis Budge, 2022-11-13 Writing in ancient Egypt first appeared in the late 4th millennium BC during the late phase of predynastic Egypt. temu my order history: Technology, Violence, and War, 2019-02-11 This volume explores the importance of technology in war, and to the study of warfare. Dr. Guilmartin's former students explore how technology from the medieval to the modern era, and across several continents, was integral to warfare and to the outcomes of wars. Authors discuss the interactions between politics, grand strategy, war, technology, and the socio-cultural implementation of new technologies in different contexts. They explore how and why belligerents chose to employ new technologies, the intended and unintended consequences of doing so, the feedback loops driving these consequences, and how the warring powers came to grips with the new technologies they unleashed. This work is particularly useful for military historians, military professionals, and policymakers who study and face analogous situations. Contributors are Alan Beyerchen, Robert H. Clemm, Edward Coss, Sebastian Cox, Daniel P. M. Curzon, Sarah K. Douglas, Robert S. Ehlers, Jr., Andrew de la Garza, John F. Guilmartin, Jr., Matthew Hurley, Peter Mansoor, Edward B. temu my order history: Awakening Osiris Normandi Ellis, 2009-06-05 The Egyptian Book of the Dead is one of the oldest and greatest classics of Western spirituality. Until now, the available translations have treated these writings as historical curiosities with little relevance to our contemporary situation. This new version, made from the hieroglyphs, approaches the Book of the Dead as a profound spiritual text capable of speaking to us today. These writings suggest that the divine realm and the human realm are not altogether separate--they remind us that the natural world, and the substance of our lives, is fashioned from the stuff of the gods. Devoted like an Egyptian scribe to the principle of effective utterance, Normandi Ellis has produced a prose translation that reads like pure, diaphanous verse.

temu my order history: XIX Olympiad George Daniels, 2015-11-18 The year 1968 is commonly remembered for the massive social and political upheaval occurring around the world at the time, but it was also the year of the Olympic Games of Mexico City. XIX Olympiad, the seventeenth volume in *The American Century* series, tells the story of one of the most exciting and controversial Olympics of the modern era. In addition to being the first Olympics held in Latin America, the Mexico Games were also held at high altitude, a factor that likely contributed to the many record-breaking performances. Among these was Bob Beamon's incredible gold-medal-winning 8.9-metre long jump, a record that would stand for 23 years, and Al Oerter's fourth consecutive gold medal in discus, a first for a track athlete. In a reflection of the times, the book tells the story of American sprinters Tommie Smith (gold) and John Carlos (bronze) who created the iconic image of the Mexico Games when they famously raised their gloved fists in a black power salute on the medal

podium. The second part the book focuses on the 1972 Winter Games of Sapporo, Japan. Star athletes of Sapporo are profiled, like Galina Kulakova of the USSR, who won three golds in cross-country skiing, and Ard Schenk of Holland, who matched that feat in speed skating. It also tells the story of three Japanese ski-jumpers who became national heroes after sweeping the 70-metre event. Juan Antonio Samaranch, former President of the International Olympic Committee, called *The Olympic Century*, the most comprehensive history of the Olympic games ever published.

temu my order history: *The Collapse of a Pastoral Economy* Samwel Shanga Mhajida, 2019
This research unravels the economic collapse of the Datoga pastoralists of central and northern Tanzania from the 1830s to the beginning of the 21st century. The research builds from the broader literature on continental African pastoralism during the past two centuries. Overall, the literature suggests that African pastoralism is collapsing due to changing political and environmental factors. My dissertation aims to provide a case study adding to the general trends of African pastoralism, while emphasizing the topic of competition as not only physical, but as something that is ethnically negotiated through historical and collective memories. There are two main questions that have guided this project: 1) How is ethnic space defined by the Datoga and their neighbours across different historical times? And 2) what are the origins of the conflicts and violence and how have they been narrated by the state throughout history? Examining archival sources and oral interviews it is clear that the Datoga have struggled through a competitive history of claims on territory against other neighbouring communities. The competitive encounters began with the Maasai entering the Serengeti in the 19th century, and intensified with the introduction of colonialism in Mbulu and Singida in the late 19th and 20th centuries. The fight for control of land and resources resulted in violent clashes with other groups. Often the Datoga were painted as murderers and impediments to development. Policies like the amalgamation measures of the British colonial administration in Mbulu or Ujamaa in post-colonial Tanzania aimed at confronting the "Datoga problem," but were inadequate in neither addressing the Datoga issues of identity, nor providing a solution to their quest for land ownership and control.

This book explores the country's tumultuous journey from the Second Anglo-Boer War to 2021. Drawing on diaries, letters, oral testimony and diplomatic reports, Thula Simpson follows the South African people through the battles, elections, repression, resistance, strikes, insurrections, massacres, crashes and epidemics that have shaped the nation. Tracking South Africa's path from colony to Union and from apartheid to democracy, Simpson documents the influence of key figures including Jan Smuts, Nelson Mandela, Steve Biko, P.W. Botha, Thabo Mbeki and Cyril Ramaphosa. He offers detailed accounts of watershed events like the 1922 Rand Revolt, the Defiance Campaign, Sharpeville, the Soweto uprising and the Marikana massacre. He sheds light on the roles of Gandhi, Churchill, Castro and Thatcher, and explores the impact of the World Wars, the armed struggle and the Border War. Simpson's history charts the post-apartheid transition and the phases of ANC rule, from Rainbow Nation to transformation; state capture to 'New Dawn'. Along the way, it reveals the divisions and solidarities of sport; the nation's economic travails; and painful pandemics, from the Spanish flu to AIDS and Covid-19.

temu my order history: *History as a Visual Art in the Twelfth-Century Renaissance* Karl F. Morrison, 2014-07-14 Karl Morrison discusses historical writing at a turning point in European culture: the so-called Renaissance of the twelfth century. Why do texts considered at that time to be masterpieces seem now to be fragmentary and full of contradictions? Morrison maintains that the answer comes from ideas about art. Viewing histories as artifacts made according to the same aesthetic principles as paintings and theater, he shows that twelfth-century authors and audiences found unity not in what the reason read in a text but in what the imagination read into it: they prized visual over verbal imagination and employed a circular, or nuclear, spectator-centered perspective cast aside in the Renaissance of the fourteenth and fifteenth centuries. Twelfth-century writers assimilated and transformed a tradition of the conceptual unity of all the arts and attributed that unity to the fact that art both conceals and discloses. Recovering that tradition, especially the methods and motives of concealment, provides extraordinary insights into twelfth-century ideas about the kingdom of God, the status of women, and the nature of time itself. It also identifies a strain in European thought that had striking affinities to methods of perception familiar in Oriental religions and that proved to be antithetic to later humanist traditions in the West. What does Merdeka mean for Singaporeans? And what are the possibilities of doing decolonial history in Singapore? Raffles Renounced: Towards a Merdeka History presents essays by historians, literary scholars and artists which grapple with these questions. The volume also reproduces some of the source material used in the play Merdeka / 自由 / 自由 (Wild Rice, 2019). Taken together, the book shows how the contradictions of independent nationhood haunt Singaporeans' collective and personal stories about Merdeka. It points to the need for a Merdeka history: an open and fearless culture of historical reckoning that not only untangles us from colonial narratives, but proposes emancipatory possibilities.

temu my order history: Define and Rule Mahmood Mamdani, 2012-10-30 Define and Rule focuses on the turn in late nineteenth-century colonial statecraft when Britain abandoned the attempt to eradicate difference between conqueror and conquered and introduced a new idea of governance, as the definition and management of difference. Mahmood Mamdani explores how lines were drawn between settler and native as distinct political identities, and between natives according to tribe. Out of that colonial experience issued a modern language of pluralism and difference. A mid-nineteenth-century crisis of empire attracted the attention of British intellectuals and led to a reconception of the colonial mission, and to reforms in India, British Malaya, and the Dutch East Indies. The new politics, inspired by Sir Henry Maine, established that natives were bound by geography and custom, rather than history and law, and made this the basis of administrative practice. Maine's theories were later translated into "native administration" in the African colonies. Mamdani takes the case of Sudan to demonstrate how colonial law established tribal identity as the basis for determining access to land and political power, and follows this law's legacy to contemporary Darfur. He considers the intellectual and political dimensions of African movements toward decolonization by focusing on two key figures: the Nigerian historian Yusuf Bala Usman, who argued for an alternative to colonial historiography, and Tanzania's first president, Mwalimu Julius Nyerere, who realized that colonialism's political logic was legal and administrative, not military, and could be dismantled through nonviolent reforms.

temu my order history: The Giriama and Colonial Resistance in Kenya, 1800-1920 Cynthia Brantley, 2024-07-26 The Giriama of Kenya's coastal hinterland persistently resisted colonialism, and they were unreceptive both to Christianity and to Islam. In 1912 the British colonial authorities earmarked the Giriama as a key source of labor for the plantations Europeans were trying to develop along the coast. The Giriama, prosperous producers and traders, could not become wage laborers and maintain their successful economy, and the British demands upon this scattered people therefore were spontaneously rejected. Increased pressure increased Giriama recalcitrance. Finally, military action brought defeat to the Giriama, whose only weapons were bows and arrows and whose decentralization prevented coordinated resistance. They lost their best lands, paid a heavy fine, and had to contribute a thousand laborers to the Carrier Corps. But the British costs were also heavy. The coastal plantations failed, few Giriama ever became wage laborers, and the entire area became depressed economically. Cynthia Brantley explores the precolonial Giriama's political and economic system and their dynamic trade relationship with the coast of Kenya in an effort to explain why the Giriama were so determined in their resistance to British pressure. She shows that even when the political and social structures of a people seem weak, it is unlikely that the population will submit to changes that undermine the economy. Moreover, their very lack of a centralized political or religious organization made the imposition of foreign administration extremely difficult. The British won the
