worst people in us history: White Trash Nancy Isenberg, 2016-06-21 The New York Times bestseller A New York Times Notable and Critics' Top Book of 2016 Longlisted for the PEN/John Kenneth Galbraith Award for Nonfiction One of NPR's 10 Best Books Of 2016 Faced Tough Topics Head On NPR's Book Concierge Guide To 2016's Great Reads San Francisco Chronicle's Best of 2016: 100 recommended books A Washington Post Notable Nonfiction Book of 2016 Globe & Mail 100 Best of 2016 "Formidable and truth-dealing . . . necessary." —The New York Times "This eye-opening investigation into our country's entrenched social hierarchy is acutely relevant." —O Magazine In her groundbreaking bestselling history of the class system in America, Nancy Isenberg upends history as we know it by taking on our comforting myths about equality and uncovering the crucial legacy of the ever-present, always embarrassing—if occasionally entertaining—poor white trash. "When you turn an election into a three-ring circus, there's always a chance that the dancing bear will win," says Isenberg of the political climate surrounding Sarah Palin. And we recognize how right she is today. Yet the voters who boosted Trump all the way to the White House have been a permanent part of our American fabric, argues Isenberg. The wretched and landless poor have existed from the time of the earliest British colonial settlement to today's hillbillies. They were alternately known as "waste people," "offals," "rubbish," "lazy lubbers," and "crackers." By the 1850s, the downtrodden included so-called "clay eaters" and "sandhillers," known for prematurely aged children distinguished by their yellowish skin, ragged clothing, and listless minds. Surveying political rhetoric and policy, popular literature and scientific theories over four hundred years, Isenberg upends assumptions about America's supposedly class-free society--where liberty and hard work were meant to ensure real social mobility. Poor whites were central to the rise of the Republican Party in the early nineteenth century, and the Civil War itself was fought over class issues nearly as much as it was fought over slavery. Reconstruction pitted poor white trash against newly freed slaves, which factored in the rise of eugenics--a widely popular movement embraced by Theodore Roosevelt that targeted poor whites for sterilization. These poor were at the heart of New Deal reforms and LBJ's Great Society; they haunt us in reality TV shows like *Here Comes Honey Boo Boo* and *Duck Dynasty*. Marginalized as a class, white trash have always been at or near the center of major political debates over the character of the American identity. We acknowledge racial injustice as an ugly stain on our nation's history. With Isenberg's landmark book, we will have to face the truth about the enduring, malevolent nature of class as well.

worst people in us history: Worst. President. Ever. Robert Strauss, 2016-10-01 Worst. President. Ever. flips the great presidential biography on its head, offering an enlightening—and highly entertaining!—account of poor James Buchanan's presidency to prove once and for all that, well, few leaders could have done worse. But author Robert Strauss does much more, leading readers out of Buchanan's terrible term in office—meddling in the Dred Scott Supreme Court decision, exacerbating the Panic of 1857, helping foment the John Brown uprisings and "Bloody Kansas," virtually inviting a half-dozen states to secede from the Union as a lame duck, and on and on—to explore with insight and humor his own obsession with presidents, and ultimately the entire notion of ranking our presidents. He guides us through the POTUS rating game of historians and others who have made their own Mount Rushmores—or Marianas Trenches!—of presidential achievement, showing why Buchanan easily loses to any of the others, but also offering insights into presidential history buffs like himself, the forgotten lesser presidential sites, sex and the presidency, the presidency itself, and how and why it can often take the best measures out of even the most dedicated men.

worst people in us history: The History of White People Nell Irvin Painter, 2011-04-18 A New York Times Bestseller This terrific new book...[explores] the 'notion of whiteness,' an idea as

dangerous as it is seductive. —Boston Globe Telling perhaps the most important forgotten story in American history, eminent historian Nell Irvin Painter guides us through more than two thousand years of Western civilization, illuminating not only the invention of race but also the frequent praise of “whiteness” for economic, scientific, and political ends. A story filled with towering historical figures, *The History of White People* closes a huge gap in literature that has long focused on the non-white and forcefully reminds us that the concept of “race” is an all-too-human invention whose meaning, importance, and reality have changed as it has been driven by a long and rich history of events.

worst people in us history: *The Worst Hard Time* Timothy Egan, 2006-09-01 In a tour de force of historical reportage, Timothy Egan’s National Book Award-winning story rescues an iconic chapter of American history from the shadows. The dust storms that terrorized the High Plains in the darkest years of the Depression were like nothing ever seen before or since. Following a dozen families and their communities through the rise and fall of the region, Timothy Egan tells of their desperate attempts to carry on through blinding black dust blizzards, crop failure, and the death of loved ones. Brilliantly capturing the terrifying drama of catastrophe, he does equal justice to the human characters who become his heroes, “the stoic, long-suffering men and women whose lives he opens up with urgency and respect” (New York Times). In an era that promises ever-greater natural disasters, *The Worst Hard Time* is “arguably the best nonfiction book yet” (Austin Statesman Journal) on the greatest environmental disaster ever to be visited upon our land and a powerful reminder about the dangers of trifling with nature. This e-book includes a sample chapter of *THE IMMORTAL IRISHMAN*.

worst people in us history: *Genius in the Shadows* William Lanouette, 2013-09-01 Well-known names such as Albert Einstein, Enrico Fermi, J. Robert Oppenheimer, and Edward Teller are usually those that surround the creation of the atom bomb. One name that is rarely mentioned is Leo Szilard, known in scientific circles as “father of the atom bomb.” The man who first developed the idea of harnessing energy from nuclear chain reactions, he is curiously buried with barely a trace in the history of this well-known and controversial topic. Born in Hungary and educated in Berlin, he escaped Hitler’s Germany in 1933 and that first year developed his concept of nuclear chain reactions. In order to prevent Nazi scientists from stealing his ideas, he kept his theories secret, until he and Albert Einstein pressed the US government to research atomic reactions and designed the first nuclear reactor. Though he started his career out lobbying for civilian control of atomic energy, he concluded it with founding, in 1962, the first political action committee for arms control, the Council for a Livable World. Besides his career in atomic energy, he also studied biology and sparked ideas that won others the Nobel Prize. The Salk Institute for Biological Studies in La Jolla, California, where Szilard spent his final days, was developed from his concepts to blend science and social issues.

worst people in us history: *A People's History of the United States* Howard Zinn, 2003-02-04 Since its original landmark publication in 1980, *A People's History of the United States* has been chronicling American history from the bottom up, throwing out the official version of history taught in schools -- with its emphasis on great men in high places -- to focus on the street, the home, and the workplace. Known for its lively, clear prose as well as its scholarly research, *A People's History* is the only volume to tell America's story from the point of view of -- and in the words of -- America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As historian Howard Zinn shows, many of our country's greatest battles -- the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality -- were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, *A People's History of the United States*, which was nominated for the American Book Award in 1981, features insightful analysis of the most important events in our history. Revised, updated, and featuring a new afterword by the author, this special twentieth anniversary edition continues Zinn's important contribution to a complete and balanced understanding of American history.

worst people in us history: Land of Hope Wilfred M. McClay, 2020-09-22 For too long we've lacked a compact, inexpensive, authoritative, and compulsively readable book that offers American readers a clear, informative, and inspiring narrative account of their country. Such a fresh retelling of the American story is especially needed today, to shape and deepen young Americans' sense of the land they inhabit, help them to understand its roots and share in its memories, all the while equipping them for the privileges and responsibilities of citizenship in American society. The existing texts simply fail to tell that story with energy and conviction. Too often they reflect a fragmented outlook that fails to convey to American readers the grand trajectory of their own history. This state of affairs cannot continue for long without producing serious consequences. A great nation needs and deserves a great and coherent narrative, as an expression of its own self-understanding and its aspirations; and it needs to be able to convey that narrative to its young effectively. Of course, it goes without saying that such a narrative cannot be a fairy tale of the past. It will not be convincing if it is not truthful. But as *Land of Hope* brilliantly shows, there is no contradiction between a truthful account of the American past and an inspiring one. Readers of *Land of Hope* will find both in its pages.

worst people in us history: History's Worst Decisions Stephen Weir, 2005 History is strewn with mistakes. Many made by well intentioned people who were bright, intelligent, capable, but just made the wrong decision.

worst people in us history: A Necessary Evil Garry Wills, 2013-05-28 In *A Necessary Evil*, Pulitzer Prize-winning author Garry Wills shows that distrust of government is embedded deep in the American psyche. From the revolt of the colonies against king and parliament to present-day tax revolts, militia movements, and debates about term limits, Wills shows that American antigovernment sentiment is based on a fundamental misunderstanding of our history. By debunking some of our fondest myths about the Founding Fathers, the Constitution, and the taming of the frontier, Wills shows us how our tendency to hold our elected government in disdain is misguided.

worst people in us history: Lies Across America James W. Loewen, 2019-09-24 A fully updated and revised edition of the book *USA Today* called jim-dandy pop history, by the bestselling, American Book Award-winning author. The most definitive and expansive work on the Lost Cause and the movement to whitewash history. —Mitch Landrieu, former mayor of New Orleans From the author of the national bestseller *Lies My Teacher Told Me*, a completely updated—and more timely than ever—version of the myth-busting history book that focuses on the inaccuracies, myths, and lies on monuments, statues, national landmarks, and historical sites all across America. In *Lies Across America*, James W. Loewen continues his mission, begun in the award-winning *Lies My Teacher Told Me*, of overturning the myths and misinformation that too often pass for American history. This is a one-of-a-kind examination of historic sites all over the country where history is literally written on the landscape, including historical markers, monuments, historic houses, forts, and ships. New changes and updates include: • a town in Louisiana that was the site of a major but now-forgotten enslaved persons' uprising • a totally revised tour of the memory and intentional forgetting of slavery and the Civil War in Richmond, Virginia • the hideout of a gang in Delaware that made money by kidnapping free blacks and selling them into slavery. Entertaining and enlightening, *Lies Across America* also has a serious role to play in contemporary debates about white supremacy and Confederate memorials.

worst people in us history: Villains, Scoundrels, and Rogues Paul Martín, 2014 From the back pages of history, vivid, entertaining portraits of little-known scoundrels whose misdeeds range from the simply inept to the truly horrifying.

worst people in us history: Permanent Supportive Housing National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Population Health and Public Health Practice, Policy and Global Affairs, Science and Technology for Sustainability Program, Committee on an Evaluation of Permanent Supportive Housing Programs for Homeless Individuals, 2018-08-11 Chronic homelessness is a highly complex social problem of national importance. The problem has elicited a variety of societal and public policy responses over the years,

concomitant with fluctuations in the economy and changes in the demographics of and attitudes toward poor and disenfranchised citizens. In recent decades, federal agencies, nonprofit organizations, and the philanthropic community have worked hard to develop and implement programs to solve the challenges of homelessness, and progress has been made. However, much more remains to be done. Importantly, the results of various efforts, and especially the efforts to reduce homelessness among veterans in recent years, have shown that the problem of homelessness can be successfully addressed. Although a number of programs have been developed to meet the needs of persons experiencing homelessness, this report focuses on one particular type of intervention: permanent supportive housing (PSH). Permanent Supportive Housing focuses on the impact of PSH on health care outcomes and its cost-effectiveness. The report also addresses policy and program barriers that affect the ability to bring the PSH and other housing models to scale to address housing and health care needs.

worst people in us history: Climate Crisis and the Global Green New Deal Noam Chomsky, Robert Pollin, 2020-09-22 An engaging conversation with Noam Chomsky—revered public intellectual and Manufacturing Consent author—about climate change, capitalism, and how a global Green New Deal can save the planet. In this compelling new book, Noam Chomsky, the world's leading public intellectual, and Robert Pollin, a renowned progressive economist, map out the catastrophic consequences of unchecked climate change—and present a realistic blueprint for change: the Green New Deal. Together, Chomsky and Pollin show how the forecasts for a hotter planet strain the imagination: vast stretches of the Earth will become uninhabitable, plagued by extreme weather, drought, rising seas, and crop failure. Arguing against the misplaced fear of economic disaster and unemployment arising from the transition to a green economy, they show how this bogus concern encourages climate denialism. Humanity must stop burning fossil fuels within the next thirty years and do so in a way that improves living standards and opportunities for working people. This is the goal of the Green New Deal and, as the authors make clear, it is entirely feasible. Climate change is an emergency that cannot be ignored. This book shows how it can be overcome both politically and economically.

worst people in us history: Donald Trump Is the Worst Person in the World Tedd Levy, 2020-07-02 Author Tedd Levy's first book takes a direct, harsh, truthful look at the evil that is Donald Trump. It's a bumpy ride, but one full of insight, logic, candor, and just a little humor. Tedd's unique style, tone, and personal voice makes his book an interesting read. Tedd frames and presents his examination of Donald Trump as no one else has. From the book: According to his first wife, Ivana, Donald Trump was never keen on bequeathing his name to anybody. It was Ivana who wanted to call their newborn Donald Junior. 'You can't do that!' Trump is quoted as saying in Ivana's memoir, *Raising Trump*. 'What if he's a loser?' To compare the Trump Foundation to the foundations of other wealthy business leaders is like comparing Mother Theresa to a pick pocket. Donald Trump is a high-tech pick pocket. Trump's conduct is on display to America and to America's children. When we assume the crucial task of building healthy children, we look to foster positive values. We teach our children to be honest-but Trump is deceitful, to be modest-but Trump is egotistical, to be kind-but Trump is cruel, to be generous-but Trump is greedy, to be respectful-but Trump is insolent, to be fair-but Trump is partial, to be compassionate-but Trump is coldhearted. Let me see if I have this right. Trump says he kisses women without their consent. Several women say he kissed them without their consent. Trump says the women are lying. Got it. Several other sources affiliated with *The Celebrity Apprentice* said during [Marlee] Matlin's appearance on the show, Donald Trump mocked her hearing loss and speech pattern and seemed to get a real kick out of doing so. They said Trump would regularly ridicule and disrespect the actress. He is reported to have repeatedly called her retarded because of her deafness and deaf accent. Pure, unadulterated, unbelievable, cruel, medieval ignorance. Trump is said to have had a passion for Princess Diana. In 1995, Trump offered Diana complimentary membership in his Mar-a-Lago Club (she declined). After her divorce, Trump sent her massive bouquets of flowers. TV journalist Selina Scott, a friend of Lady Di, has since revealed that Diana had said that she felt stalked by Trump and that he gave her the creeps. In 1997

on his radio show, Howard Stern asked Trump, 'You could've nailed her, right?' Trump responded, 'I think I could've.' Table of Contents: 1. Trump the Liar, 2. Trump the Bigot, 3. Trump the Hypocrite, 4. Trump the Bully, 5. Trump the Thief, 6. Trump the Braggart, 7. Trump the Crude, 8. Trump the Ignorant, 9. Trump the Religious Charlatan, 10. Trump the Philanthropic Phony, 11. Trump the Lewd, 12. Trump the Bizarre, 13. Trump the Ad Hominem King, 14. Trump the Narcissist, 15. Trump the Terrible, 16. Explaining Trump, 17. Colin, 18. Malala, 19. Marwa, 20. Miscellany, 21.

Endnotes This book is written with reverence for the all patriots who have helped develop and foster our remarkable American values.

worst people in us history: Major Problems in American History Since 1945 Robert Griffith, Paula Baker, 2007 This text introduces students to both primary sources and analytical essays on important topics in U.S. history. The book asks students to evaluate primary sources, test the interpretations and draw their own conclusions.

worst people in us history: The Great Big Book of Horrible Things Matthew White, 2011-10-25 A compulsively readable and utterly original account of world history—from an atrocitologist's point of view. Evangelists of human progress meet their opposite in Matthew White's epic examination of history's one hundred most violent events, or, in White's piquant phrasing, the numbers that people want to argue about. Reaching back to 480 BCE's second Persian War, White moves chronologically through history to this century's war in the Congo and devotes chapters to each event, where he surrounds hard facts (time and place) and succinct takeaways (who usually gets the blame?) with lively military, social, and political histories. With the eye of a seasoned statistician, White assigns each entry a ranking based on body count, and in doing so he gives voice to the suffering of ordinary people that, inexorably, has defined every historical epoch. By turns droll, insightful, matter-of-fact, and ultimately sympathetic to those who died, *The Great Big Book of Horrible Things* gives readers a chance to reach their own conclusions while offering a stark reminder of the darkness of the human heart.

worst people in us history: The Founders at Home: The Building of America, 1735-1817 Myron Magnet, 2014 Discusses the history of America's Founding Fathers through their words and actions but also through the architectural treasures of the homes they built while they conspired to change the world.

worst people in us history: A People's History of American Empire Howard Zinn, Mike Konopacki, Paul Buhle, 2008-04 Adapted from the critically acclaimed chronicle of U.S. history, a study of American expansionism around the world is told from a grassroots perspective and provides an analysis of important events from Wounded Knee to Iraq.

worst people in us history: Teaching What Really Happened James W. Loewen, 2018-09-07 "Should be in the hands of every history teacher in the country."—Howard Zinn James Loewen has revised *Teaching What Really Happened*, the bestselling, go-to resource for social studies and history teachers wishing to break away from standard textbook retellings of the past. In addition to updating the scholarship and anecdotes throughout, the second edition features a timely new chapter entitled Truth that addresses how traditional and social media can distort current events and the historical record. Helping students understand what really happened in the past will empower them to use history as a tool to argue for better policies in the present. Our society needs engaged citizens now more than ever, and this book offers teachers concrete ideas for getting students excited about history while also teaching them to read critically. It will specifically help teachers and students tackle important content areas, including Eurocentrism, the American Indian experience, and slavery. Book Features: An up-to-date assessment of the potential and pitfalls of U.S. and world history education. Information to help teachers expect, and get, good performance from students of all racial, ethnic, and socioeconomic backgrounds. Strategies for incorporating project-oriented self-learning, having students conduct online historical research, and teaching historiography. Ideas from teachers across the country who are empowering students by teaching what really happened. Specific chapters dedicated to five content topics usually taught poorly in today's schools.

worst people in us history: Hitler's American Friends Bradley W. Hart, 2018-10-02 A book examining the strange terrain of Nazi sympathizers, nonintervention campaigners and other voices in America who advocated on behalf of Nazi Germany in the years before World War II. Americans who remember World War II reminisce about how it brought the country together. The less popular truth behind this warm nostalgia: until the attack on Pearl Harbor, America was deeply, dangerously divided. Bradley W. Hart's *Hitler's American Friends* exposes the homegrown antagonists who sought to protect and promote Hitler, leave Europeans (and especially European Jews) to fend for themselves, and elevate the Nazi regime. Some of these friends were Americans of German heritage who joined the Bund, whose leadership dreamed of installing a stateside Führer. Some were as bizarre and hair-raising as the Silver Shirt Legion, run by an eccentric who claimed that Hitler fulfilled a religious prophesy. Some were Midwestern Catholics like Father Charles Coughlin, an early right-wing radio star who broadcast anti-Semitic tirades. They were even members of Congress who used their franking privilege—sending mail at cost to American taxpayers—to distribute German propaganda. And celebrity pilot Charles Lindbergh ended up speaking for them all at the America First Committee. We try to tell ourselves it couldn't happen here, but Americans are not immune to the lure of fascism. *Hitler's American Friends* is a powerful look at how the forces of evil manipulate ordinary people, how we stepped back from the ledge, and the disturbing ease with which we could return to it.

worst people in us history: Bad People in History Roland C. Barker, 2001 A companion volume to *Bad Times in History*, this original from RHVP takes a look at the infamous throughout world history, presented in A-to-Z format. Dictators, terrorists, mass murderers, serial killers, all the villains of history are here.

worst people in us history: A War of Frontier and Empire David J. Silbey, 2008-03-04 First-rate military history, *A War of Frontier and Empire* retells an often forgotten chapter in America's past, infusing it with commanding contemporary relevance. It has been termed an insurgency, a revolution, a guerrilla war, and a conventional war. As David J. Silbey demonstrates in this taut, compelling history, the 1899 Philippine-American War was in fact all of these. Played out over three distinct conflicts—one fought between the Spanish and the allied United States and Filipino forces; one fought between the United States and the Philippine Army of Liberation; and one fought between occupying American troops and an insurgent alliance of often divided Filipinos—the war marked America's first steps as a global power and produced a wealth of lessons learned and forgotten.

worst people in us history: When Bad Things Happen to Privileged People Dara Z. Strolovitch, 2023-07-05 A deep and thought-provoking examination of crisis politics and their implications for power and marginalization in the United States. From the climate crisis to the opioid crisis to the Coronavirus crisis, the language of crisis is everywhere around us and ubiquitous in contemporary American politics and policymaking. But for every problem that political actors describe as a crisis, there are myriad other equally serious ones that are not described in this way. Why has the term crisis been associated with some problems but not others? What has crisis come to mean, and what work does it do? In *When Bad Things Happen to Privileged People*, Dara Z. Strolovitch brings a critical eye to the taken-for-granted political vernacular of crisis. Using systematic analyses to trace the evolution of the use of the term crisis by both political elites and outsiders, Strolovitch unpacks the idea of “crisis” in contemporary politics and demonstrates that crisis is itself an operation of politics. She shows that racial justice activists innovated the language of crisis in an effort to transform racism from something understood as natural and intractable and to cast it instead as a policy problem that could be remedied. Dominant political actors later seized on the language of crisis to compel the use of state power, but often in ways that compounded rather than alleviated inequality and injustice. In this eye-opening and important book, Strolovitch demonstrates that understanding crisis politics is key to understanding the politics of racial, gender, and class inequalities in the early twenty-first century.

worst people in us history: The Worst President in History Matt Margolis, Mark Noonan,

2018-07-24 An Amazon Bestseller! The Most Comprehensive Takedown of the Obama Presidency! "If you want to know why the history books will have a dim view of Barack Obama, this is the book to read."—John Hawkins, Right Wing News and Townhall.com The presumption of Barack Obama's presidential greatness began before he even won the presidency. Now that he's out of office, presidential "experts" and historians are ranking Obama as one of our nation's greatest presidents, placing him amongst Washington, Lincoln, Jefferson, and Truman. Obama's presidency was certainly consequential, but it was by no means great. Did Barack Obama really save America from another Great Depression? Did he really unite America or improve America's global image? Did he really usher in a new era of post-partisanship and government transparency? Did he really expand health coverage while lowering costs and cutting taxes? Did he really make America safer and stronger than it was when he first took office? According to his supporters in the media, Hollywood, and academia, he did. But they are wrong. And they're working aggressively to ensure their version of Obama's legacy is written into the history books. How can you discover and protect the truth? Matt Margolis and Mark Noonan have compiled everything you need to know about the presidency of Barack Obama into a single source. First published in 2016, this book has now been updated to include the entirety of Obama's presidency, and the shocking details that have come to light since he left office. **The Worst President in History: The Legacy of Barack Obama** compiles two hundred inconvenient truths about Obama's presidency—the facts that define his legacy: his real impact on the economy; the disaster that is Obamacare; his shocking abuses of taxpayer dollars; his bitterly divisive style of governing; his shameless usurping of the Constitution; his many scandals and cover-ups; his policy failures at home and abroad; the unprecedented expansion of government power...and more. In his farewell address to supporters on January 11, 2017, Barack Obama declared, "By almost every measure, America is a better, stronger place than it was when we started." This book destroys that narrative, putting Obama's presidency into historical context and offering an avalanche of facts that simply cannot be ignored. All of these facts are now at your fingertips in a single source. **The Worst President in History: The Legacy of Barack Obama** is your ultimate guide to Obama's real presidential record—the record he'd like history to forget.

worst people in us history: An Indigenous Peoples' History of the United States (10th Anniversary Edition) Roxanne Dunbar-Ortiz, 2023-10-03 New York Times Bestseller Now part of the HBO docuseries *Exterminate All the Brutes*, written and directed by Raoul Peck Recipient of the American Book Award The first history of the United States told from the perspective of indigenous peoples Today in the United States, there are more than five hundred federally recognized Indigenous nations comprising nearly three million people, descendants of the fifteen million Native people who once inhabited this land. The centuries-long genocidal program of the US settler-colonial regimen has largely been omitted from history. Now, for the first time, acclaimed historian and activist Roxanne Dunbar-Ortiz offers a history of the United States told from the perspective of Indigenous peoples and reveals how Native Americans, for centuries, actively resisted expansion of the US empire. With growing support for movements such as the campaign to abolish Columbus Day and replace it with Indigenous Peoples' Day and the Dakota Access Pipeline protest led by the Standing Rock Sioux Tribe, *An Indigenous Peoples' History of the United States* is an essential resource providing historical threads that are crucial for understanding the present. In *An Indigenous Peoples' History of the United States*, Dunbar-Ortiz adroitly challenges the founding myth of the United States and shows how policy against the Indigenous peoples was colonialist and designed to seize the territories of the original inhabitants, displacing or eliminating them. And as Dunbar-Ortiz reveals, this policy was praised in popular culture, through writers like James Fenimore Cooper and Walt Whitman, and in the highest offices of government and the military. Shockingly, as the genocidal policy reached its zenith under President Andrew Jackson, its ruthlessness was best articulated by US Army general Thomas S. Jesup, who, in 1836, wrote of the Seminoles: "The country can be rid of them only by exterminating them." Spanning more than four hundred years, this classic bottom-up peoples' history radically reframes US history and explodes

the silences that have haunted our national narrative. An Indigenous Peoples' History of the United States is a 2015 PEN Oakland-Josephine Miles Award for Excellence in Literature.

worst people in us history: The Paranoid Style in American Politics Richard Hofstadter, 2008-06-10 This timely reissue of Richard Hofstadter's classic work on the fringe groups that influence American electoral politics offers an invaluable perspective on contemporary domestic affairs. In *The Paranoid Style in American Politics*, acclaimed historian Richard Hofstadter examines the competing forces in American political discourse and how fringe groups can influence — and derail — the larger agendas of a political party. He investigates the politics of the irrational, shedding light on how the behavior of individuals can seem out of proportion with actual political issues, and how such behavior impacts larger groups. With such other classic essays as “Free Silver and the Mind of ‘Coin’ Harvey” and “What Happened to the Antitrust Movement?”, *The Paranoid Style in American Politics* remains both a seminal text of political history and a vital analysis of the ways in which political groups function in the United States.

worst people in us history: Learning from the Germans Susan Neiman, 2019-08-27 As an increasingly polarized America fights over the legacy of racism, Susan Neiman, author of the contemporary philosophical classic *Evil in Modern Thought*, asks what we can learn from the Germans about confronting the evils of the past. In the wake of white nationalist attacks, the ongoing debate over reparations, and the controversy surrounding Confederate monuments and the contested memories they evoke, Susan Neiman's *Learning from the Germans* delivers an urgently needed perspective on how a country can come to terms with its historical wrongdoings. Neiman is a white woman who came of age in the civil rights-era South and a Jewish woman who has spent much of her adult life in Berlin. Working from this unique perspective, she combines philosophical reflection, personal stories, and interviews with both Americans and Germans who are grappling with the evils of their own national histories. Through discussions with Germans, including Jan Philipp Reemtsma, who created the breakthrough *Crimes of the Wehrmacht* exhibit, and Friedrich Schorlemmer, the East German dissident preacher, Neiman tells the story of the long and difficult path Germans faced in their effort to atone for the crimes of the Holocaust. In the United States, she interviews James Meredith about his battle for equality in Mississippi and Bryan Stevenson about his monument to the victims of lynching, as well as lesser-known social justice activists in the South, to provide a compelling picture of the work contemporary Americans are doing to confront our violent history. In clear and gripping prose, Neiman urges us to consider the nuanced forms that evil can assume, so that we can recognize and avoid them in the future.

worst people in us history: The Road Not Taken: Edward Lansdale and the American Tragedy in Vietnam Max Boot, 2018-01-09 Finalist for the Pulitzer Prize (Biography) A New York Times bestseller, this “epic and elegant” biography (Wall Street Journal) profoundly recasts our understanding of the Vietnam War. Praised as a “superb scholarly achievement” (Foreign Policy), *The Road Not Taken* confirms Max Boot's role as a “master chronicler” (Washington Times) of American military affairs. Through dozens of interviews and never-before-seen documents, Boot rescues Edward Lansdale (1908–1987) from historical ignominy to “restore a sense of proportion” to this “political Svengali, or ‘Lawrence of Asia’ ” (The New Yorker). Boot demonstrates how Lansdale, the man said to be the fictional model for Graham Greene's *The Quiet American*, pioneered a “hearts and minds” diplomacy, first in the Philippines and then in Vietnam. Bringing a tragic complexity to Lansdale and a nuanced analysis to his visionary foreign policy, Boot suggests Vietnam could have been different had we only listened. With contemporary reverberations in Iraq, Afghanistan, and Syria, *The Road Not Taken* is a “judicious and absorbing” (New York Times Book Review) biography of lasting historical consequence.

worst people in us history: Voices of a People's History of the United States Howard Zinn, Anthony Arnove, 2011-01-04 Here in their own words are Frederick Douglass, George Jackson, Chief Joseph, Martin Luther King Jr., Plough Jogger, Sacco and Vanzetti, Patti Smith, Bruce Springsteen,

Mark Twain, and Malcolm X, to name just a few of the hundreds of voices that appear in *Voices of a People's History of the United States*, edited by Howard Zinn and Anthony Arnove. Paralleling the twenty-four chapters of Zinn's *A People's History of the United States*, *Voices of a People's History* is the long-awaited companion volume to the national bestseller. For *Voices*, Zinn and Arnove have selected testimonies to living history—speeches, letters, poems, songs—left by the people who make history happen but who usually are left out of history books—women, workers, nonwhites. Zinn has written short introductions to the texts, which range in length from letters or poems of less than a page to entire speeches and essays that run several pages. *Voices of a People's History* is a symphony of our nation's original voices, rich in ideas and actions, the embodiment of the power of civil disobedience and dissent wherein lies our nation's true spirit of defiance and resilience.

worst people in us history: The Framers' Coup Michael J. Klarman, 2016-09-16 Americans revere their Constitution. However, most of us are unaware how tumultuous and improbable the drafting and ratification processes were. As Benjamin Franklin keenly observed, any assembly of men bring with them all their prejudices, their passions, their errors of opinion, their local interests and their selfish views. One need not deny that the Framers had good intentions in order to believe that they also had interests. Based on prodigious research and told largely through the voices of the participants, Michael Klarman's *The Framers' Coup* narrates how the Framers' clashing interests shaped the Constitution—and American history itself. The Philadelphia convention could easily have been a failure, and the risk of collapse was always present. Had the convention dissolved, any number of adverse outcomes could have resulted, including civil war or a reversion to monarchy. Not only does Klarman capture the knife's-edge atmosphere of the convention, he populates his narrative with riveting and colorful stories: the rebellion of debtor farmers in Massachusetts; George Washington's uncertainty about whether to attend; Gunning Bedford's threat to turn to a European prince if the small states were denied equal representation in the Senate; slave states' threats to take their marbles and go home if denied representation for their slaves; Hamilton's quasi-monarchist speech to the convention; and Patrick Henry's herculean efforts to defeat the Constitution in Virginia through demagoguery and conspiracy theories. *The Framers' Coup* is more than a compendium of great stories, however, and the powerful arguments that feature throughout will reshape our understanding of the nation's founding. Simply put, the Constitutional Convention almost didn't happen, and once it happened, it almost failed. And, even after the convention succeeded, the Constitution it produced almost failed to be ratified. Just as importantly, the Constitution was hardly the product of philosophical reflections by brilliant, disinterested statesmen, but rather ordinary interest group politics. Multiple conflicting interests had a say, from creditors and debtors to city dwellers and backwoodsmen. The upper class overwhelmingly supported the Constitution; many working class colonists were more dubious. Slave states and nonslave states had different perspectives on how well the Constitution served their interests. Ultimately, both the Constitution's content and its ratification process raise troubling questions about democratic legitimacy. The Federalists were eager to avoid full-fledged democratic deliberation over the Constitution, and the document that was ratified was stacked in favor of their preferences. And in terms of substance, the Constitution was a significant departure from the more democratic state constitutions of the 1770s. Definitive and authoritative, *The Framers' Coup* explains why the Framers preferred such a constitution and how they managed to persuade the country to adopt it. We have lived with the consequences, both positive and negative, ever since.

worst people in us history: A History of the American People Paul Johnson, 2009-06-30 As majestic in its scope as the country it celebrates. [Johnson's] theme is the men and women, prominent and unknown, whose energy, vision, courage and confidence shaped a great nation. It is a compelling antidote to those who regard the future with pessimism.— Henry A. Kissinger Paul Johnson's prize-winning classic, *A History of the American People*, is an in-depth portrait of the American people covering every aspect of U.S. history—from politics to the arts. The creation of the United States of America is the greatest of all human adventures, begins Paul Johnson's remarkable work. No other national story holds such tremendous lessons, for the American people themselves

and for the rest of mankind. In *A History of the American People*, historian Johnson presents an in-depth portrait of American history from the first colonial settlements to the Clinton administration. This is the story of the men and women who shaped and led the nation and the ordinary people who collectively created its unique character. Littered with letters, diaries, and recorded conversations, it details the origins of their struggles for independence and nationhood, their heroic efforts and sacrifices to deal with the 'organic sin' of slavery and the preservation of the Union to its explosive economic growth and emergence as a world power. Johnson discusses contemporary topics such as the politics of racism, education, the power of the press, political correctness, the growth of litigation, and the influence of women throughout history. Sometimes controversial and always provocative, *A History of the American People* is one author's challenging and unique interpretation of American history. Johnson's views of individuals, events, themes, and issues are original, critical, and in the end admiring, for he is, above all, a strong believer in the history and the destiny of the American people.

worst people in us history: *The Other America* Michael Harrington, 1997-08 Examines the economic underworld of migrant farm workers, the aged, minority groups, and other economically underprivileged groups.

worst people in us history: *The Age of Acrimony* Jon Grinspan, 2021-04-27 A penetrating, character-filled history "in the manner of David McCullough" (WSJ), revealing the deep roots of our tormented present-day politics. Democracy was broken. Or that was what many Americans believed in the decades after the Civil War. Shaken by economic and technological disruption, they sought safety in aggressive, tribal partisanship. The results were the loudest, closest, most violent elections in U.S. history, driven by vibrant campaigns that drew our highest-ever voter turnouts. At the century's end, reformers finally restrained this wild system, trading away participation for civility in the process. They built a calmer, cleaner democracy, but also a more distant one. Americans' voting rates crashed and never fully recovered. This is the origin story of the "normal" politics of the 20th century. Only by exploring where that civility and restraint came from can we understand what is happening to our democracy today. *The Age of Acrimony* charts the rise and fall of 19th-century America's unruly politics through the lives of a remarkable father-daughter dynasty. The radical congressman William "Pig Iron" Kelley and his fiery, Progressive daughter Florence Kelley led lives packed with drama, intimately tied to their nation's politics. Through their friendships and feuds, campaigns and crusades, Will and Florie trace the narrative of a democracy in crisis. In telling the tale of what it cost to cool our republic, historian Jon Grinspan reveals our divisive political system's enduring capacity to reinvent itself.

worst people in us history: *A History of the American People* Paul Johnson, 1998-02-17 The creation of the United States of America is the greatest of all human adventures, begins Paul Johnson's remarkable new American history. No other national story holds such tremendous lessons, for the American people themselves and for the rest of mankind. Johnson's history is a reinterpretation of American history from the first settlements to the Clinton administration. It covers every aspect of U.S. history--politics; business and economics; art, literature and science; society and customs; complex traditions and religious beliefs. The story is told in terms of the men and women who shaped and led the nation and the ordinary people who collectively created its unique character. Wherever possible, letters, diaries, and recorded conversations are used to ensure a sense of actuality. The book has new and often trenchant things to say about every aspect and period of America's past, says Johnson, and I do not seek, as some historians do, to conceal my opinions. Johnson's history presents John Winthrop, Roger Williams, Anne Hutchinson, Cotton Mather, Franklin, Tom Paine, Washington, Adams, Jefferson, Hamilton, and Madison from a fresh perspective. It emphasizes the role of religion in American history and how early America was linked to England's history and culture and includes incisive portraits of Andrew Jackson, Chief Justice

Marshall, Clay, Lincoln, and Jefferson Davis. Johnson shows how Grover Cleveland and Teddy Roosevelt ushered in the age of big business and industry and how Woodrow Wilson revolutionized the government's role. He offers new views of Harding, Coolidge, and Hoover and of Franklin Roosevelt's New Deal and his role as commander in chief during World War II. An examination of the unforeseen greatness of Harry Truman and reassessments of Eisenhower, Kennedy, Johnson, Nixon, Reagan, and Bush follow. Compulsively readable, said *Foreign Affairs* of Johnson's unique narrative skills and sharp profiles of people. This is an in-depth portrait of a great people, from their fragile origins through their struggles for independence and nationhood, their heroic efforts and sacrifices to deal with the 'organic sin' of slavery and the preservation of the Union to its explosive economic growth and emergence as a world power and its sole superpower. Johnson discusses such contemporary topics as the politics of racism, education, Vietnam, the power of the press, political correctness, the growth of litigation, and the rising influence of women. He sees Americans as a problem-solving people and the story of America as essentially one of difficulties being overcome by intelligence and skill, by faith and strength of purpose, by courage and persistence...Looking back on its past, and forward to its future, the auguries are that it will not disappoint humanity. This challenging narrative and interpretation of American history by the author of many distinguished historical works is sometimes controversial and always provocative. Johnson's views of individuals, events, themes, and issues are original, critical, and admiring, for he is, above all, a strong believer in the history and the destiny of the American people.

worst people in us history: *The Real Lincoln* Thomas J. DiLorenzo, 2009-02-19 A New Look at Abraham Lincoln, His Agenda, and an Unnecessary War Most Americans consider Abraham Lincoln to be the greatest president in history. His legend as the Great Emancipator has grown to mythic proportions as hundreds of books, a national holiday, and a monument in Washington, D.C., extol his heroism and martyrdom. But what if most everything you knew about Lincoln were false? What if, instead of an American hero who sought to free the slaves, Lincoln were in fact a calculating politician who waged the bloodiest war in American history in order to build an empire that rivaled Great Britain's? In *The Real Lincoln*, author Thomas J. DiLorenzo uncovers a side of Lincoln not told in many history books--and overshadowed by the immense Lincoln legend. Through extensive research and meticulous documentation, DiLorenzo portrays the sixteenth president as a man who devoted his political career to revolutionizing the American form of government from one that was very limited in scope and highly decentralized—as the Founding Fathers intended—to a highly centralized, activist state. Standing in his way, however, was the South, with its independent states, its resistance to the national government, and its reliance on unfettered free trade. To accomplish his goals, Lincoln subverted the Constitution, trampled states' rights, and launched a devastating Civil War, whose wounds haunt us still. According to this provocative book, 600,000 American soldiers did not die for the honorable cause of ending slavery but for the dubious agenda of sacrificing the independence of the states to the supremacy of the federal government, which has been tightening its vise grip on our republic to this very day. In *The Real Lincoln*, you will discover a side of Lincoln that you were probably never taught in school—a side that calls into question the very myths that surround him and helps explain the true origins of a bloody, and perhaps, unnecessary war.
